

President's address to the participants of 11th Congress of Pathology of Serbia and Montenegro

It is a great honor to invite all pathologists to 11th Congress of the Association of Serbian and Montenegrin Pathologists. After the successful 10th Congress of pathologists held on Tara last year, the Association of Pathologists is organizing 11th Congress with international participation from May 23-26, 2004 here on Zlatibor. We welcome the attendance of wide-ranging experts in various fields of medicine, veterinarian medicine, biochemistry, molecular biology, and other.

The main topics of the Congress are pathology of professional and conatal diseases, clinico-pathological correlation's in oncology, pathology of collagen tissue diseases, education in forensic medicine, and anatomic pathology.

Besides enthusiastic engagement of Prof. Dr Vuka Katić, the President of Scientific Committee, and Prof. Dr. Čedo Kutlešić, the President of Organizing Committee, I would like to mention the contribution of Prof. Dr. Vladimir Vit. Baltić, the Editor-in-Chief of the journal Archive of Oncology.

We are grateful to all institutions and companies for supporting the successful realization of the Congress.

I do hope that all participants will enjoy the scientific sessions and also enjoy the mountain surroundings and warm hospitality of western Serbia.

*Professor Jovan DIMITRIJEVIĆ, PhD, MD
President of the Association of
Serbian and Montenegrin Pathologists*
