

*Dear colleagues,*

*It is my pleasure to write these words of praise and acknowledgement to our colleagues that together with Prof. Lotz persist in endeavors to keep the knowledge and science here in Novi Sad. In these days of ours, collaboration and communication with our French colleagues in various fields of oncology appear to be so simple, comprehensible, and applicable. I am happy for their generosity in sharing with us their knowledge and expertise in oncology that, in our circumstances, sometimes seem to be insurmountable obstacles. Persistence, determination, and above all a great love for people adorn the character of Professor Jean-Pierre Lotz. As far as I am concerned, I can only say that I have been professionally very fortunate to meet Professor Lotz who in three consecutive Septembers teaches us the new achievements in oncology.*

*Prof. Dr. Darjana Jovanović*
